

Klein KF-120SS Fuel Tank Pod

HIGHLIGHTS

VERSATILITY: This ultra-robust Fuel Pod is unloaded anywhere to serve as a stationary, independent fuel supply and frees your truck for other tasks.

STABILITY: Patented Trapezoid Design delivers the lowest center of gravity tank, which improves safety and added visibility for the driver.

SAFETY: Patented PFC-Precision Flow Control System limits the movement of liquid inside the tank, increasing stability and truck maneuverability.

STRENGTH: Flanged Heads Manufacturing technique offers a tank that is 5 to 10 times stronger than a tank with regular butt welds, increasing durability.

QUALITY: This Heavy-Duty Fuel Pod is made of the best Stainless Steel/corrosion resistant materials to ensure top quality fuel for consumers.

DEPENDABILITY: Klein Tanks have been field tested and proven worldwide in the harshest conditions of mining and construction for 59+ years.

Klein

PROVEN VALUE.
